- Low noise
- Fast drying

# Provides low noise yet fast drying

User drying perception - exceeds all expectations

Great balance between low noise, fast dry times and low energy use

Has one of the longest motor lifespans in the world

Attractive and elegantly designed

Nearly 4 times more energy efficient than a conventional hand dryer

UK designed and built, very vandal resistant

## Specification

Dry Time Range	15 – 20 Seconds
Rated Power	1.4 kW
Cost per 1000 dries	84p
Finishes and Codes	White (DF06M2W) Polished Chrome (DF06M2)
IP rating	IP23
Dimensions	Height 308mm Width 266mm Depth 187mm

RECOMMENDED TRAFFIC:  
**>500 uses a day**

GUARANTEE PERIOD:  
**5 years**

## Benefits

### A perfect allrounder

It's sometimes difficult to balance a quiet hand dryer with fast dry times and low energy because of the reliance on a heater element. This unit brings a perfect equilibrium of low noise, fast dry times and good energy efficiency. For a quiet hand dryer, it produces dry times that no user will be disappointed with.

### A motor life that exceeds most others

When you buy a hand dryer you want it to last. Most quality high traffic hand dryers have a motor life of 3000 – 4000 hours and give years of service. This has a motor life of 17,000 hours! Whatever your traffic level, this motor will keep running for years beyond most others on the market.

### Discreet and unassuming

The noise level emitted will not interrupt a peaceful and friendly ambience. This hand dryer is suitable when requiring satisfactory drying times, yet minimal interruption to conversations, working atmospheres or indeed the ears of vulnerable adults and children.

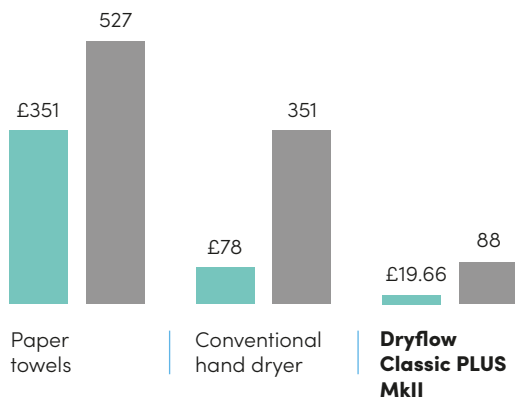

### Cost saving compared to other hand drying methods

The Dryflow Classic PLUS will save you considerable money and energy use compared to a conventional hand dryer or constant replenishment of paper towels.

### Made to the highest standards

This attractive and elegant, UK designed & built hand dryer is one of the most robust available. With both the cover and back plate being made of high-grade stainless steel, secured by anti-vandal screws, they are suitable for unforgiving environments.

## Annual cost and carbon production (Kg/CO<sup>2</sup>) for an office of 20 people\*
