

Dryflow  
Jetforce

RECOMMENDED TRAFFIC:  
**<500 uses a day**

GUARANTEE PERIOD:  
**5 years**

- Low noise
- Low energy
- Fast drying

# Long life, quiet and low cost

User drying perception:  
exceeds all expectations

Superior long life brushless motor

Already a low noise hand dryer,  
a low speed setting decreases this further

Option to remove heat from the airflow at  
all times via hidden on / off switch, keeping  
energy use and running costs low

HEPA filter and water collection tray  
included as standard, maintaining  
bathroom hygiene at all times

Easy maintenance diagnostic system

## Specification

<b>Dry Time Range</b>	15 – 20 Seconds
<b>Rated Power</b>	0.75 – 1.85 kW
<b>Cost per 1000 dries</b>	43p – £1.05
<b>Finishes and Codes</b>	Silver (JF1G)
<b>IP rating</b>	IPX4
<b>Dimensions</b>	Height 685mm Width 300mm Depth 218mm

RECOMMENDED TRAFFIC:  
**<500 uses a day**

GUARANTEE PERIOD:  
**5 years**

## Benefits

### Quality blade style hand dryer

A mid-priced hand dryer, made to the highest standards. Users demand fast dry times and this does not disappoint anybody. A blue ray of light precisely guides the user to the powerful airflow, allowing them to accurately pinpoint wetness on the hands. This is a solid and reliable unit made for heavy daily use.

### Top of the range brushless motor

It includes a long life, superior motor to that found in most other hand dryers. Brushless motors carry a number of advantages including no need to maintain brushes that wear over time, greater efficiency using less energy per rotation, quieter operation and increased lifespan.

### Keeps washrooms dry

There's nothing worse than having to constantly dry the floors when excess water drips down the side of this type of hand dryer. Water is driven into a hidden, easy to empty collection tray. Maximising health & safety.

### Hand hygiene is a priority

The air blasted onto the hands is purified by a high grade HEPA filter. This removes 99.99% bacteria from the air taken into the unit ensuring clean air is used at all times. Perfect in any washroom location.

### Quietest in its class

Loud noise hand dryers can put people off using them and cause disturbances elsewhere in a building. Not good in locations that require peaceful and friendly atmospheres or cater for vulnerable people like the elderly or children. This Quiet Mark approved hand dryer is one of the quietest blade style hand dryers you will find.

### Intelligent heating system

This unit thinks for itself, automatically keeping the temperature of the airflow comfortable, with no need for someone to remember to do it. If the rooms cold it will add heat. If it's a warm day it doesn't. This makes sure you do not waste any energy unnecessary. A smart way to keep money in your pocket, minimise impact on the environment and keep users happy.

### What's wrong? Find out quickly and easily

If a fault should occur or general maintenance is required, you are quickly notified via error codes. It will outline exactly where the malfunction lies, making it easy and simple to diagnose and rectify. You'll get it back in service at no time at all.

## Annual cost and carbon production (Kg/CO<sup>2</sup>) for an office of 20 people\*
