

IFS739-100/127 Prestige Vanity Top Soap Dispensers

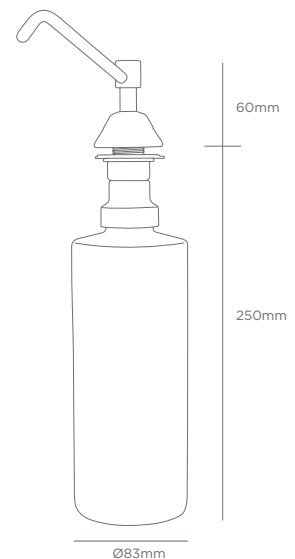

These dispensers are recommended for washroom basin tops, kitchen counter tops, bath sides and hair salon tops. They offer a discrete and elegant alternative to wall mounted dispensers. Minimum space is required, yet the 1000ml container is suitable for high use washrooms. The spout can be positioned to hang into wash basins and avoid soap residue on surfaces, the spout will not rotate once installed. Hard wearing and corrosion resistant materials ensure a long product life.

Technical Description

AISI 304 polished chrome spout with brass housing fits above counter top, the 1000ml capacity polypropylene container is concealed under the counter top. The dispenser requires a 25mm hole drilled through surface. Press-down, spring-loaded pump mechanism delivers single 2ml shot of liquid soap. Refill access is through a special key that allows the piston and spout to be removed enabling easy, above the counter filling. Two spout lengths available 100mm and 127mm.

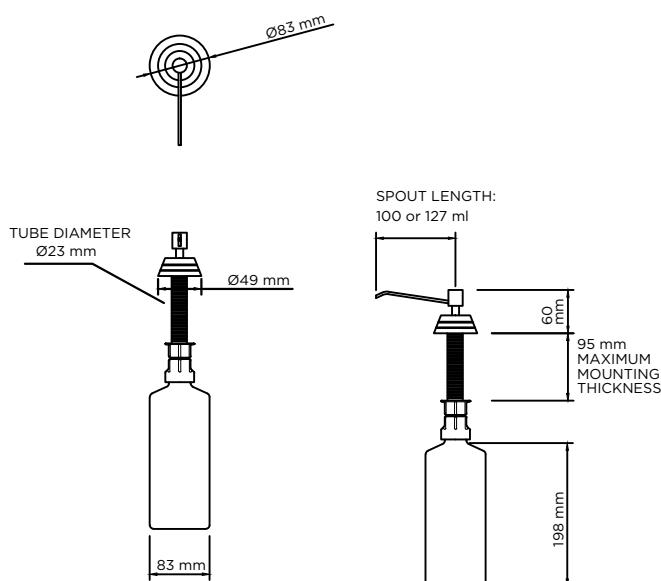

Dimensions

Above counter:
60mm.
Under counter:
250mm.
Spout length:
100mm or 127mm
